TO WHOM IT MAY CONCERN

This is to certify that the United Nations Environment Programme (UNEP) endorses the environmental initiatives by the Green Seniors Movement and notes that these initiatives are in compliance with UNEP's objectives on environmental education.

The Green Seniors Movement seeks to promote environmental awareness among senior citizens and to encourage them to contribute towards environmental protection. The Movement is based on the premise that in many communities, senior members of society possess vast knowledge and experience in a variety of areas, including environmental matters.

UNEP would like to recommend this initiative for support to individuals and institutions. UNEP will, on its part, support the initiative by providing information materials; and has linked to the Green Seniors Movement website as a key resource on senior citizens and the environment.

Yours sincerely,

pp. Eric Falt
Director

Division of Communications and Public Information
